

# VistaCam1000

High Definition Waterproof Outdoor Wi-Fi Camera

vera™

## Congratulations!

The VistaCam 1000 Camera uses Wi-Fi for connectivity to deliver high definition surveillance video.

In this package you'll find:

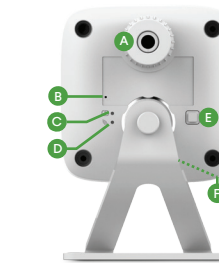

VistaCam 1000 & Stand

AC Power Adapter

Micro USB to Ethernet Adapter

- A Power Connection
- B Microphone
- C Power LED
- D Network LED
- E WPS/Reset Button (Wi-Fi Protected Setup)
- F LAN Port

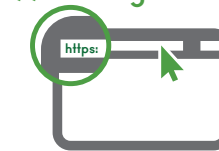

## Wireless Setup

These are the steps for pairing the VistaCam 1000 using WPS with **VeraEdge, VeraPlus, & VeraSecure Controllers.** (For other Vera Controllers go to wired installation instructions on the opposite side).

- G Light Sensor
- H Camera Lens
- I IR Night Illumination
- J PIR Sensor

- 1 Login to your Vera Dashboard.  
<https://home.getvera.com>

- 2 Click on the Devices Tab.

- 3 Click the Add Device Button.

- 4 Click Security Cameras.

- 5 Select VistaCam 1000.

- 6 Click the Begin Wireless Setup Button to start the pairing process.
